VIRTUAL ONLINE TESTING (VOT)

THE NEW MOST CONVENIENT & ACCURATE METHOD OF ASSESSMENT.

PREAMBLE

Assessment is key to the life of every academic institution but can be tiring sometimes. As demanding as it is, parents will not appreciate all the efforts if any minutest error is discovered.

The energy and time spent in marking Objective (Multiple Choice) answer sheets and the waste of material resources associated with it can be minimized if not totally eradicated.

We therefore propose **Virtual Online Testing (VOT)** – the most convenient and accurate means of assessment to your organization, as a solution.

INTRODUCTION

Education in the 21st Century **has taken a new dimension** where students should no longer be subjected to the likely human errors of their subject teachers when marking their scripts because there are available applications to support teaching & learning to make life easier. Our **children are advancing intellectually** on a daily basis due to exposure to the internet and other electronic media which is their passion and we can utilize these media to the advantage of both the school and the students.

External examination bodies (WAEC, NECO & JAMB) are beginning to consider the adoption of online testing as the best means of assessment.

PARADIGM SHIFT

Students of this generation are driven more by **technology rather than pedagogy**. Instead of compelling them to the old ways, we opine that their passion (technology) be harmonized with their responsibility (academics) to achieve the best within the shortest possible time.

To help in salvaging this situation, **Pen-Write Communications Ltd** was incorporated in 2007 (**RC 790155**) and has successfully established the first online academy / home school in Nigeria (**Pen-Write Academy – the Pioneer Online School in Nigeria for Prys, JSS, SSS, SSCE/GCE & UTME**) as an academic support-service provider under its project titled **“Education Without Borders... A classroom Without Walls”**. Ref: www.penwriteonline.com

OUR VISION

To be a leading institution in youth education and empowerment and to become a household name in education in Nigeria and its sub-regions, through online contact.

OUR MISSION

To use modern technology in providing support services in education, making learning and life easier and more convenient for all our customers and inspiring students to imbibe the virtue of 'success by integrity' through our programmes and services.

OUR TEAM

Our team of developers are 100% professional teachers with proven track record, so we understand the importance and value of school records and we have our affiliate partner in California, USA.

BENEFITS OF VOT

1. It eliminates the possibility of malpractice which may arise due to personnel familiarity and/or compromise.
2. 99.9% error free due to automated processing & scoring.
3. It saves time and energy as teachers will channel their energy to more productive intellectual use.
4. It speeds up the time frame for result collation since result are displayed instantly.
5. It provides a two-way record confirmation and tamper control as result recorded by invigilator is verified with authentic record from Pen-Write for errors / alterations.

BENEFITS CONTD.

6. Waste of material resources (Paper, Ink etc) is reduced drastically if not totally eliminated.
7. It boosts the morale of the student and gives them an air of international status.
7. It promotes the image of the school to the outside world for being 21st Century technology compliant.
8. It provides a database for assessment as a question bank will be created for each school for random selection later on.
9. It reduces the stress and error associated with marking due to fatigue.

BENEFITS CONTD.

10. Candidates away from school with genuine reasons will not miss test/exam as they have access to the question from anywhere in the world having been provided with login details.
11. Ease of access through desktop, Laptop, Ipad, I-Phone, Tablet, Androids or any internet-enabled device.
12. It allows flexibility in exam time-table. Where computers will not go round, some candidates will be assigned for online testing while others busy themselves with theory test.
13. Students know their fate immediately after finishing the test.
